Pantone 7739C (light green)

Printing

1 x side 1 x colour - white compostable ink

Shelf Life

12 months - when stored & handled correctly as per manufacturer's recommendations

(Strictly avoid conditions where excessive heat, direct sunlight or moisture may be present.)

Degradation

In a certified commercial composting facility bags will break down into small non-toxic particles less than 2mm in size within 12 weeks.

Within 24 weeks (approx. 6 months) simply only CO₂ and H₂O will be present.

If product end of life is diverted away from an industrial composting facility as designed, minimal environmental benefits will be achieved.

Certification

ABA Certified - Compliant with all requirements of current Australian Standards AS4736-2006 and AS5810 - Home composting compliant.

(Current compostable certification documents available upon request)
